

Commercial Union Charity Fund

For six years now, the Stefan Batory Foundation has been cooperating with Commercial Union – Life Insurance Company (Poland) S.A. which has been providing us with donations towards assistance to the disabled and to children and youth. In 2001, the support of Commercial Union enabled us to extend a number of grants under the *Big Brother*, *Big Sister* and *Volunteer* programs, among others; we also joined forces in the *Footbridge* project addressed to children and youth from areas suffering flood damage in the summer of 2001. All the grants disbursed from funds provided by Commercial Union have been described at length under the appropriate program headings, viz Children's Program, Youth Program, Legal Program, and NGO Program.

In addition, the Foundation manages the Commercial Union Charity Fund which we use solely to finance undertakings specified by the donor institution; these are associated with extending assistance to the sick and needy and with educational activity.
